Forecast for Wednesday 10 Aug 2022

Weather: Always cloudier across western coastal ranges, particularly north of Ullapool, with the chance of some patchy light rain developing, chiefly through to mid-morning. Best of the weather will be across eastern peaks such as Ben Wyvis where bright and sunny spells build into the afternoon.

Chance of cloud-free hill tops above 800m: Ranging from 30% at first in the northwest and 95% plus in the east from mid-day.

Low cloud and visibility: Visibility good to very good, becoming moderate or poor in rain or drizzle and very poor within cloud, with bases quite extensive to 500m across the far west.

Met Office Aberdeen Meteorologist's View
Hill fog largely confined to far west, with risk sunburn in exposure across east.

Forecast for Thursday 11 Aug 2022
Weather: Most staying dry, and bright through the morning and early afternoon, but cloud and patchy rain initially lingering across western coastal ranges will extend slowly and erratically eastwards through the day, reaching most by late evening.

Maximum wind: West or southwest initially 20-25mh with gusts reaching 35mph across most exposed ridges and summits, gradually easing through the rest of the day.

Chance of cloud-free hill tops above 800m: Initially 95% in east and 40% in far west, becoming late in day 50% in east and 10% in west.

Low cloud and visibility: Visibility good to very good, becoming moderate or poor in rain and very poor within cloud, with bases quite extensive to 500m across the far west at first, occasionally so later in the day across the rest of the area.

Temperature: **Glens:** Plus 9 Celsius increasing 23 Celsius for a time during the afternoon
At 800m: Plus 9 Celsius
Freezing level: Well above all summits
